Look! The little boy is sleeping.

And he is having a dream...

Introduction:

Everyone must have some interesting and childlike dreams in their childhood generation. These dreams are probably affected by their parent's guides or teachings. Whimsical dreams are always a very special memory of a children. This picture book includes some watercolor and acrylic drawings of several iconic sightseeing spots in different countries, such as the U.K., the U.S., Japan, France, and Egypt. The bubbles, airplane with a rocket engine, and other pictures of iconic sightseeing spots illustrate the dream of the boy who has the desire of discovering and exploring the world. The memory of the dream is always precious. Actually, the main character (the boy) is the younger generation of me. To look back on this memory of dream is always memorable and unforgettable because my father always brought me to the airport and encourage me to imagine more about the sky. Hopefully, this picture book can evoke the memory of every reader who has the desire, passion, enthusiasm, and courage to discover and explore the unknown and spectacular part of the world.
