Introduction:

The picture book is about how animals take a bath. Different animals have their own unique way of taking a bath. Animals included are hippo, monkey, elephant, lion, duck and finally human being. The picture book includes some questions which can add more interaction with readers. Questions are like “Do you like to take a bath?” and “Do you know how animals take a bath?” These questions can make readers think how they take a bath. Then, they can compare their ways of taking a bath with animals’. How human beings are taking a bath is shown in the last page of the book.

The book aims to encourage children to take a shower or bath, and I hope that through introducing animals’ unique way of cleaning themselves children can fall in love with showering or bathing and appreciate individual’s uniqueness.
